

A zipped inner and outer cotton pillow protector

Natural fleece from Yew Tree's alpacas goes into the pillows

THE ALL NATURAL YEW TREE

ALPACA PILLOW

- Filled with totally natural alpaca fleece
- Pure 100% alpaca-washed fleece no other treatment or additives (other than delicates washing liquid!)
- Natural filling – unfriendly to dust mites unlike synthetic fibres
- Fully adjustable- the zipped inner bag allows you to remove fleece, fluff up the filling or add more if required
- Excellent option for allergy sufferers, particularly as alpaca fibre does not contain lanolin
- Helps regulate body temperature (the fibre originally developed to keep alpacas warm when cold and cool when hot). Each fibre has a hollow core to enable them to do this
